**SHIELD MOUNTS**

**O**ur experienced team is dedicated to ensuring that every detail of your precious hunting trophy comes to life. We take pride in our craftsmanship and attention to detail.

Our friendly admin team is ready to assist you, offering guidance on various mounting options and suggestions. Whether you're looking for classic mounts or a unique, customised piece, we'll help you create a display that reflects your personal style and showcases your trophy beautifully.

#### SHIELD MOUNTS:

A shield or European mount is a bleached skull mounted on a wooden shield, perfect for displaying on your wall. In addition to our standard design, we offer unique Africa-shaped and Namibia-shaped shields, giving you a distinctive option for your décor. The shields come in two shades: dark brown and light brown, all crafted locally with care.

For a minimalist look, we also offer a hook mount. This features only the bleached skull with a hook attached to the back, allowing you to display just the skull and horns on your wall.

# IMPORTANT SHIPPING INFORMATION

*Evolving regulations and logistical challenges have made international trophy shipping more complicated. To ensure that your valuable and memorable hunting trophies are delivered safely and without hassle, here are some essential tips and requirements for shipping:*

## Required information and documentation

- Namibian Hunting Permit in the hunter's name.
- Copy of the hunter's passport.
- Full physical home address.
- Delivery address (if different from physical address).
- Contact details, including email and phone number.
- Import customs broker details (if known).

## Advice for hunters

- Ensure that your full legal name (as per your passport) is used for all documentation.
- For US clients, select a Fish and Wildlife (FWS) designated port of entry near your delivery location.
- Work with a customs broker experienced in importing hunting trophies.
- Post-hunt costs, including dip and pack services, taxidermy, and crating, are generally not included in hunting fees.
- All US hunters need their own crate as multiple hunters cannot pack together, except in the case of husband/wife or parent/minor child combinations.
- Work closely with your customs broker or shipping agent to resolve any issues quickly, as delays can lead to additional fees.
